IN CENTER WITH
ARTER KIT

Agenda

- Welcome
- What is the Power Platform Admin Center
 - Environment management
 - User management
 - Tenant settings (Cool features: Lockbox, environment routing, capacity dashboard, tenant isolation)
- What's Tenant Isolation
- What's the Center of Excellence Starter Kit
 - Tenant Connections
 - Admin View App is a highlight
 - DLP Editor v2
 - Dataverse tables to build your own stuff
- Wrap Up

Power Platform Admin Center

- What is the Admin center for?

Administer Microsoft Power Platform

Article • 06/21/2023 • 9 contributors

Feedback

In this article

Power Platform admin center capabilities

Home page dashboard

The Power Platform admin center (<https://admin.powerplatform.microsoft.com>) provides a unified portal for administrators to manage environments and settings for Power Apps, Power Automate, Power Pages, and Power Virtual Agents.

Power Platform Admin Center

- Next to environment, users and DLPs, we have some cool features, I want to show you
 - Settings (where the new stuff is)
 - Environment routing
 - Capacity dashboard
 - Lockbox
 - Tenant isolation

Tenant Isolation

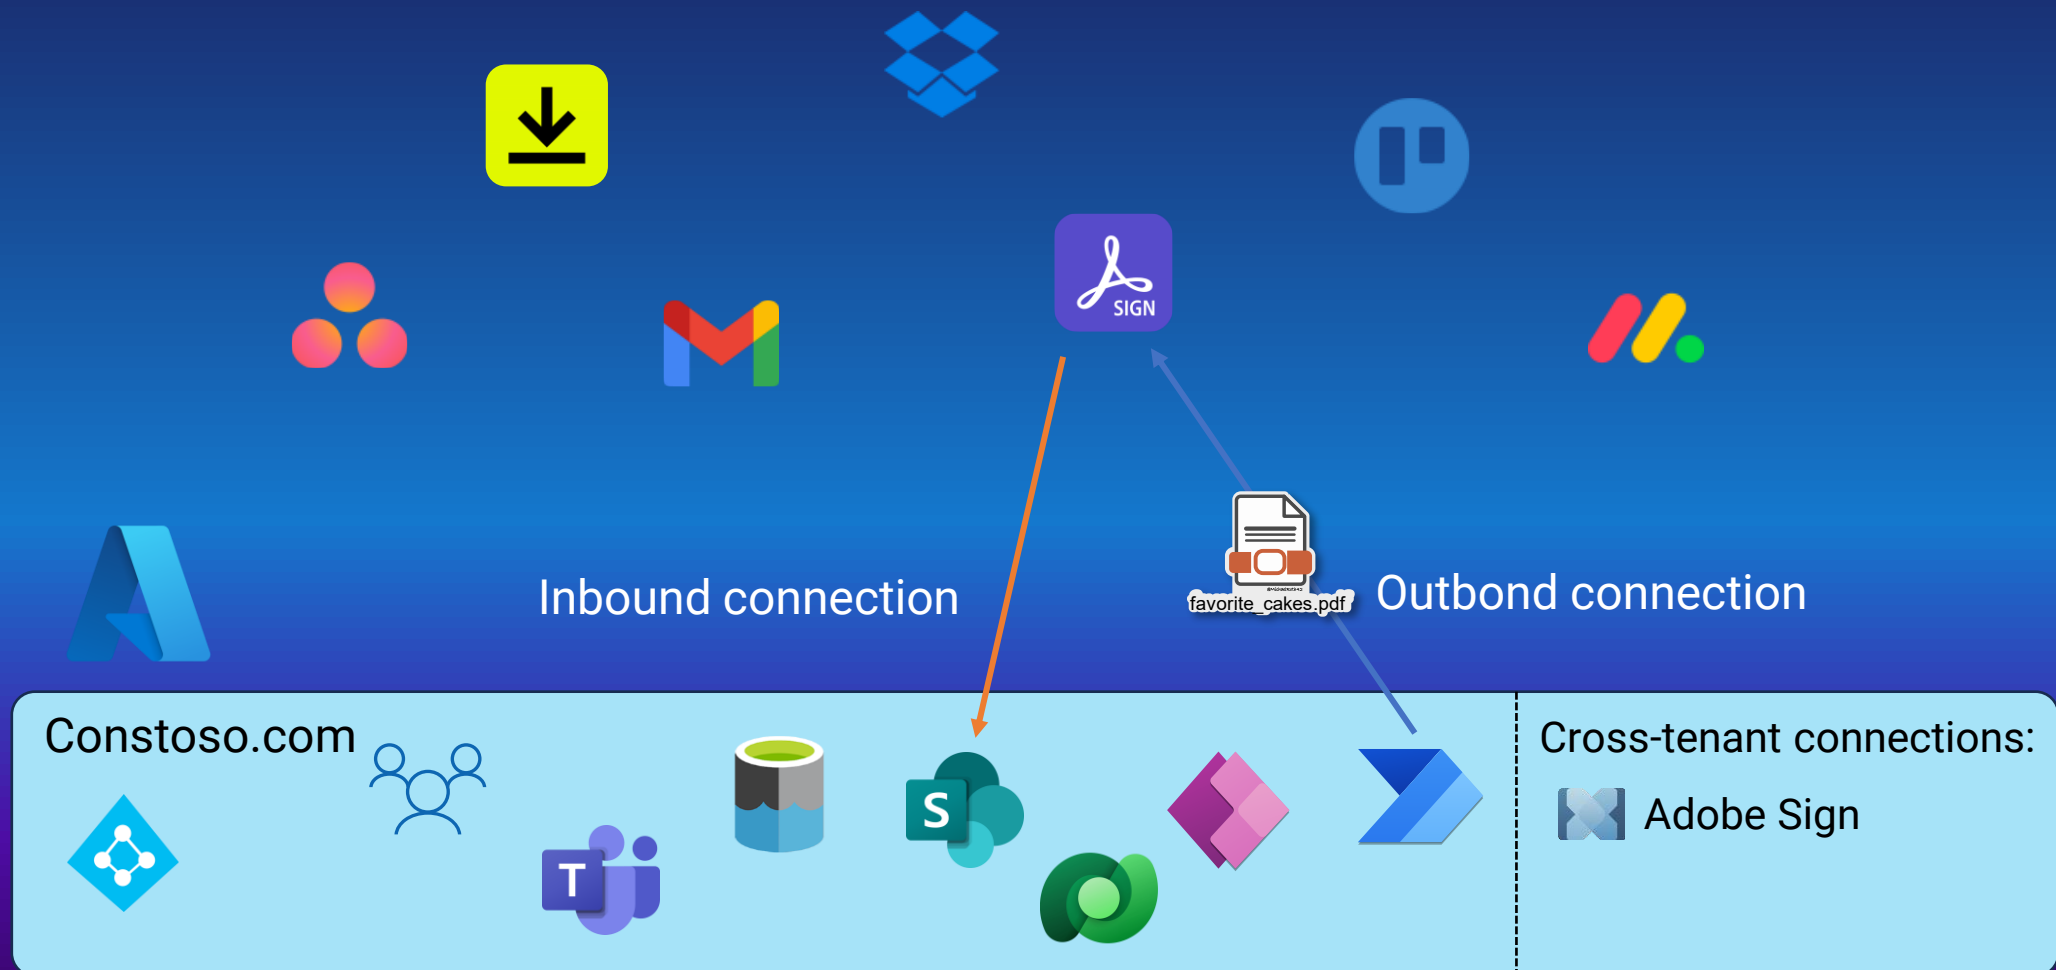

- Tenant isolation allows admins to effectively govern the movement of tenant data from Azure AD authorized data sources to and from their tenant.
- The default configuration in Power Platform with tenant isolation **Off** is to allow cross-tenant connections to be established seamlessly
- It affects Power Platform canvas apps and Power Automate flows

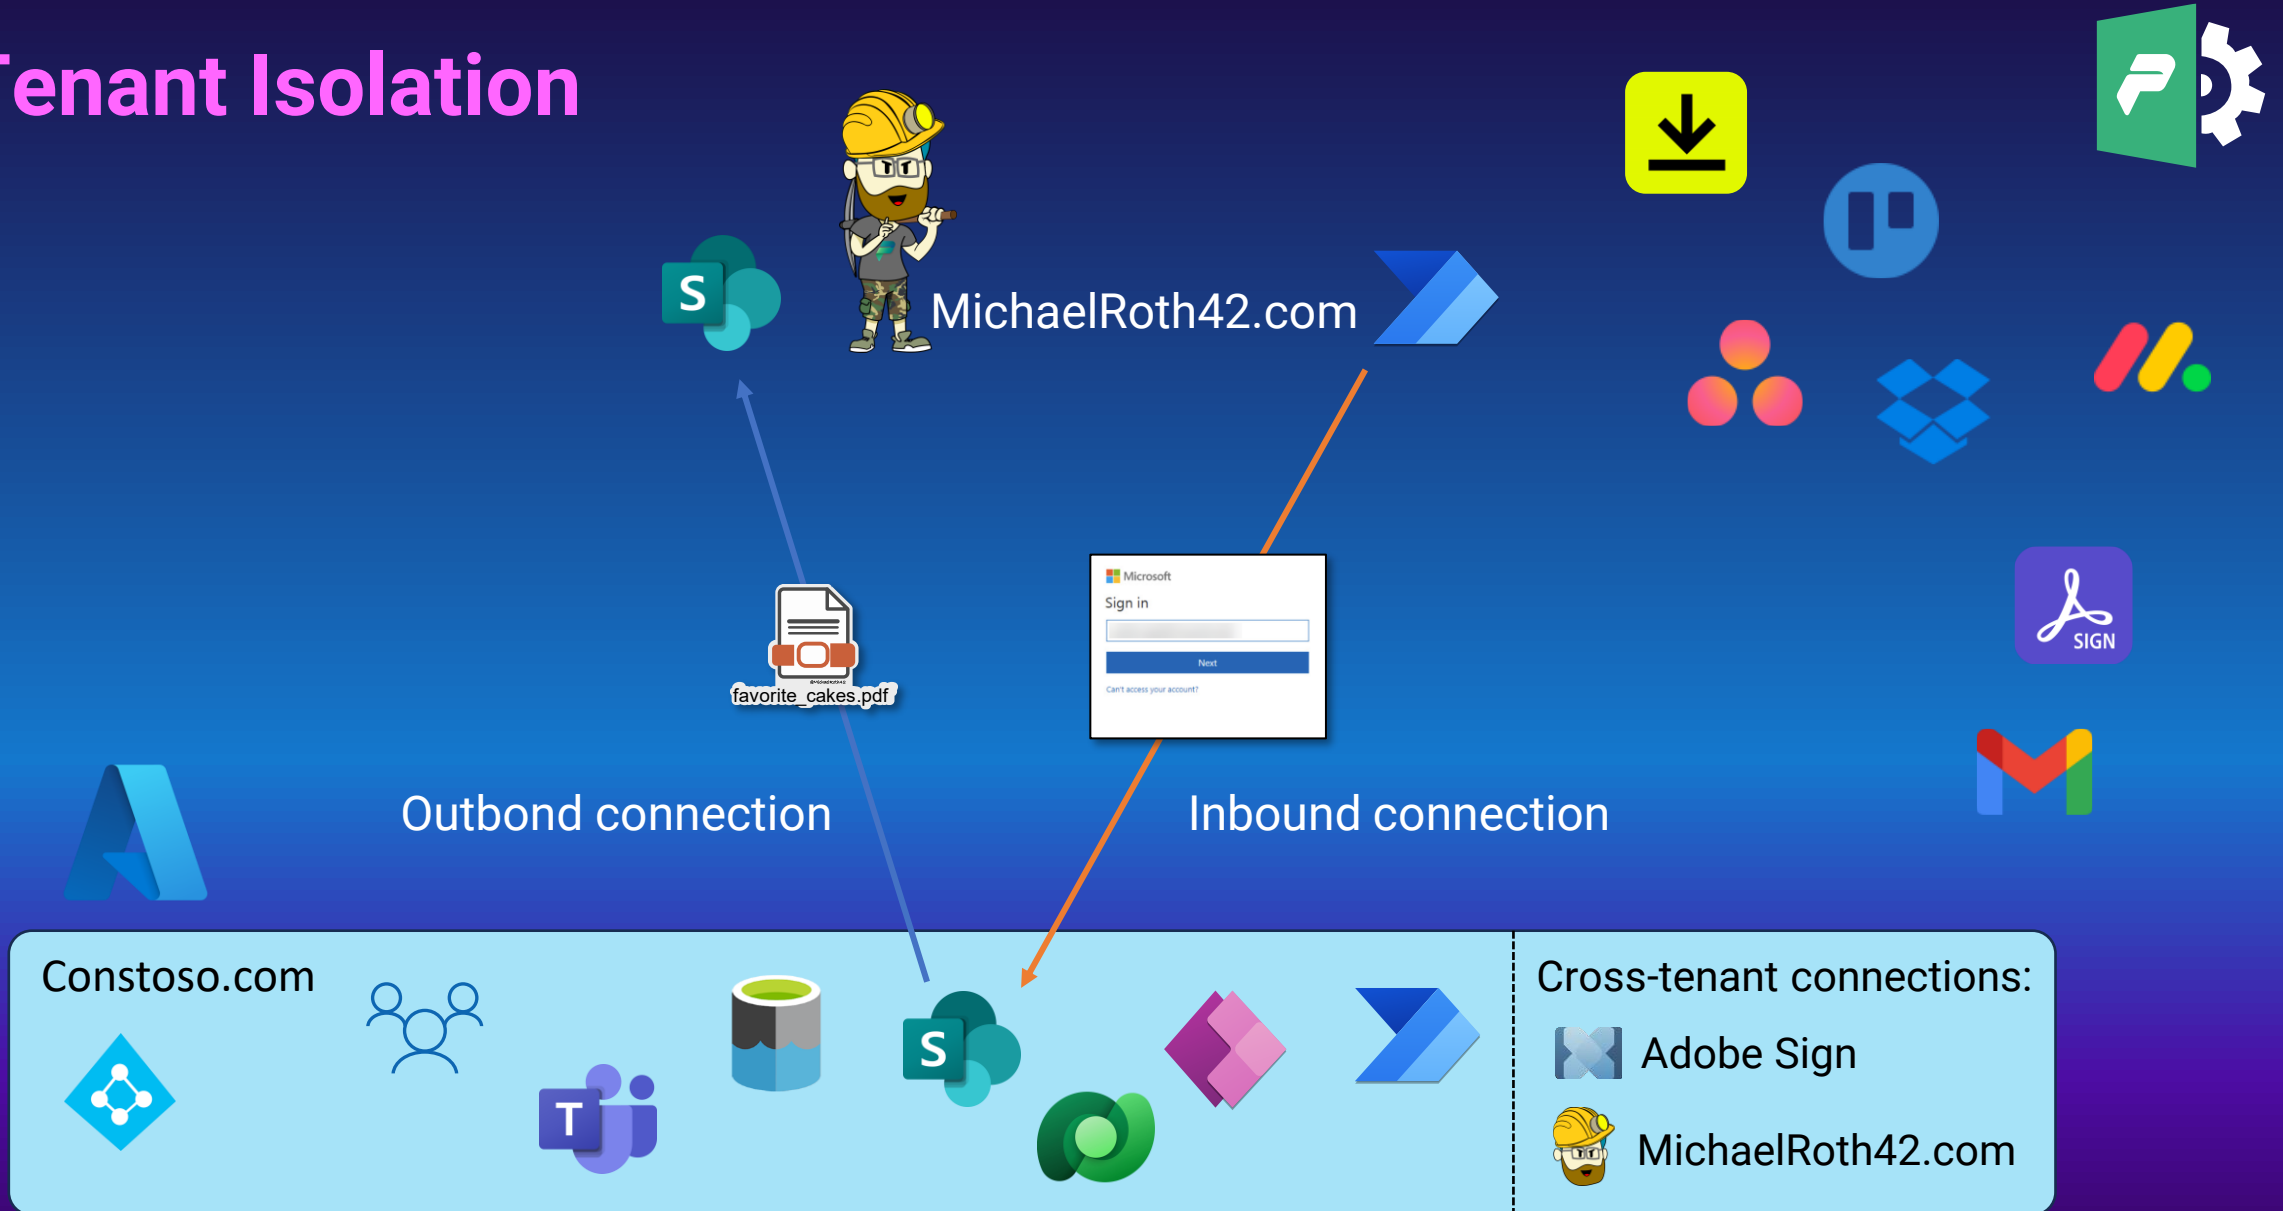

ⓘ Note

It takes about an hour for the latest tenant isolation policy changes to be assessed against active apps and flows. This change isn't instantaneous.

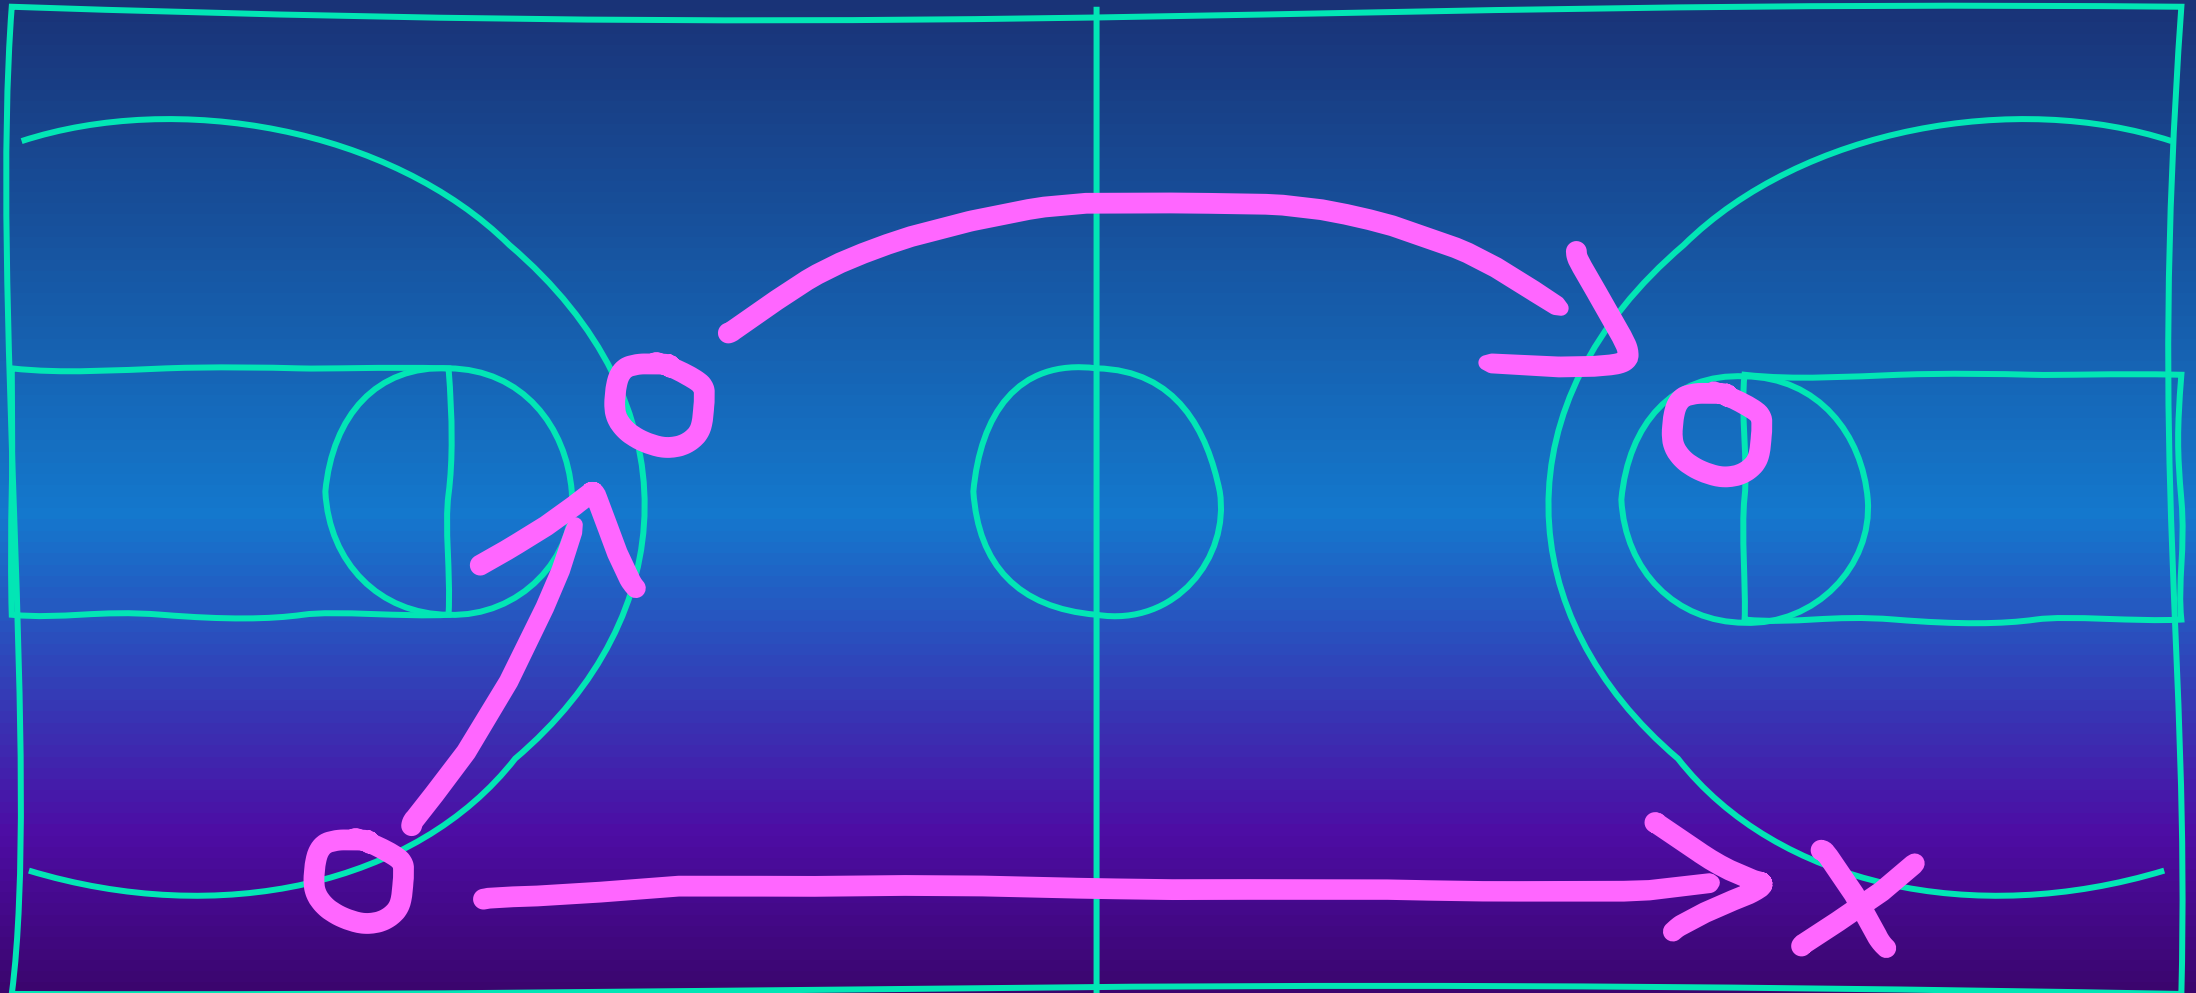

Tenant Isolation

Tenant Isolation

Power Platform Admin Center

Center of Excellence Starter Kit

Hard facts:

- Microsoft “garage project”
- 20 apps
- 114 cloud flows
- 77 Dataverse tables
- inspiration for processes (they work ootb)
- Constant upgrades (every month)
- (Support)
